

The logo for Food Drink Ireland, featuring a stylized bracket shape on the left and the text 'Food Drink Ireland' to its right.

Food Drink
Ireland

The logo for Skillnet, consisting of the word 'Skillnet' in a sans-serif font with a green circle around the 'net' part.

Skillnet

A photograph of two workers in a factory setting. They are wearing white lab coats, blue hairnets, and a white face mask. They are looking at a tablet computer held by the woman on the right. The tablet displays a dashboard with various charts and graphs. The background shows industrial machinery and a clean, well-lit environment.

Training Programmes 2024-2025

Enterprise-led training for
the food and drink sector

fooddrinkirelandskillnet.ie

Food Drink Ireland Skillnet work with companies in the food and drink sector to address skills gaps and access government funding to develop and deliver industry-specific learning programmes.

“The team spends a lot of time with industry, understanding the needs and working out how training can help to meet them. Every programme offered is directly relevant to the industry. We also know that if we identify a particular gap and there is no course relevant to it at the moment, Food Drink Ireland Skillnet will work with us on creating one. That kind of responsiveness is invaluable.”

Anita Gallagher, Head of People and Capability at Britvic Ireland

2. Develop training programmes based on the needs of the sector

4. Over 1,200 individuals participated in our courses last year

6. Addresses skills gaps critical to the success of Irish Food and Drink companies

1. Work with industry to identify skills gaps and areas of change within the industry that require education and training

3. Over 200 companies avail of our training every year

5. Over 12,000 training days offered nationwide

Benefits

“ Food Drink Ireland Skillnet gives us access to training and training providers, that without their support would be out of our reach. They are very reactive to the needs of its members and will always be guided by member companies on where the investment should be made. They have enabled us to double the amount of training available to our team members.”

Liz Doyle – Bewleys

Help create bespoke courses designed specifically for skills gaps in the sector

Tailor existing courses to suit your needs

Save up to 60% on the cost of training due to network purchasing power plus part-government funding.

The times of the courses are flexible to suit the needs of companies

Collaborate, learn and network from colleagues across the industry

Leveraging learning and development to address key challenges in our sector

As the labour market nears full employment, challenges such as the attraction and retention of staff; the need for digitalisation; sustainability; inflation and Brexit will be a key focus for the food and drink sector moving forward.

To address these challenges, collaboration across the sector is critical and a pivotal enabler to this Skillnet model. Insights and support from our highly engaged Steering Group of learning and development experts from across the sector has permitted the Food Drink Ireland Skillnet to develop training programmes that are strategically essential. Additionally, Skillnet funding, along with our procurement processes, ensure that we work with the best trainers and ensure that all programmes are delivered to the highest standard whilst maintaining value for money.

Food Drink Ireland Skillnet is a resource to support all companies in this sector, and I would encourage you to get involved in the following ways:

- Ensure your details, and learning and development colleagues in your business, are on the Food Drink Ireland mailing list by emailing mark.skinner@ibec.ie;
- Engage with us on social media – the Food Drink Ireland Skillnet is on both [LinkedIn](#) and [Twitter \(X\)](#);
- If you have training needs that are not currently being met by our network, let us know and we will see if we can support; and
- Get involved by joining our Steering Group, where you can collaborate with peers from across the sector.

Paul Kelly
Director
Food Drink Ireland

Our Network

Enterprise-driven training is a fundamental element of the Food Drink Ireland Skillnet. Our management team collaborates with its Steering group and wider membership base to ensure all training is relevant to the needs of the sector.

All training delivered by the network is part-funded by Skillnet Ireland who receives funding from the National Training Fund through the Department of Further and Higher Education, Research, Innovation and Science.

Our Steering Group

Our steering group is made up of industry professionals from across the food and drink sector. As a group, they share their insights, knowledge and experience to identify key skills gaps and provide strategic direction for the network. In addition, they ensure that the highest standards are maintained and that the sector is achieving an effective return on Skillnet Ireland funding.

Get involved

Be a participant, not just a member.

To ensure we service the Food and Drink sector effectively, we must communicate with industry-professionals on an on-going basis. By understanding the challenges faced by the industry, we can find training solutions to overcome them together.

It's your network – shape it!

Taking the Lead: Introduction to Leadership Skills

A 2-day leadership programme for operatives about to be appointed as Supervisors, or newly appointed Supervisors in the Food & Drink sector

Who should attend?

Operatives about to be appointed as team leader or recently appointed team leaders / Supervisors.

Trainer

Established 20 years ago, **Invisio** are highly rated providers of people and organisational development training. They have significant experience working with companies in the food and drink sector and have delivered leadership and management programmes to member companies of Food Drink Ireland Skillnet since 2013.

Objectives

At the end of the programme participants will:

- + understand the role of the supervisor versus that of the individual contributor
- + recognise what's the difference, what needs to change and how to be successful in the role
- + recognise the typical new supervisor traps and choose the correct course of action to avoid them
- + know how to use the right pace of the role and the situation
- + develop people management skills through structured practice using simple effective models (practice and feedback)
- + examine one's own leadership style and increase self-awareness as a supervisor

Programme content

Day 1

- + **Your Role as a Supervisor**
 - Making the Change / Stepping up
 - The Supervisor / Peer challenge
 - Where you fit in / What is expected of you
 - Challenging people situations
- + **Having Clear Objectives**
 - Understanding the red thread
 - Making my objectives SMARTer
- + **How to plan and organise**
 - A systematic approach to achieving results

Day 2

- + **How to communicate and motivate effectively**
 - Barriers to communication and steps to overcome
 - Understanding our natural style and getting the best from others
 - How we demotivate people and really motivate them
- + **How to measure performance & developing your team**
 - What actually is acceptable and unacceptable performance
 - Performance conversations
 - Developing individuals and teams
- + **Personal Action Plans**

Duration

2 days in classroom or 4 X 0.5 days online

Front line personnel in food and drink businesses, responsible for process problems in day-to-day operations or those responsible for leading continuous improvement teams. It is also intended for anyone who has completed LSS Yellow Belt and wishes to deepen their knowledge as well as those working with Six Sigma Black Belts on major improvement programmes.

Trainer

SQT Training is the largest provider of Lean Six Sigma in Ireland having trained over 2,000 Leans Six Sigma practitioners to date.

Objectives

To develop participants understanding of Lean Six Sigma applications, approaches and methodology. To expose students to the powerful tools used to successfully navigate continuous improvement within their organisation.

Level 6 students will complete five days training and conduct a Case Study report.

Level 7 students will complete five days training and a company based project placement.

Programme content

1 days training on the tools within each of the DMAIC elements:

- + Define**
 - Content / Tools – Project Charter, Lean and Six Sigma Principles, Project Planning, Baseline Assessment, Stakeholder Analysis, VOC Capture, SIPOC
- + Measure**
 - Content / Tools – Gemba, Waste Walking, Value Stream Mapping, Spaghetti Mapping, Activity Mapping, Process Stability & Capability assessment, Measurement Systems Analysis, Data Collection Planning, SME Brainstorming
- + Analyse**
 - Content / Tools – 5 Why RCA, A3 Problem Solving, Graphical Analysis Techniques, Takt Time, OEE, Process Cycle Efficiency, Load Charts, Theory of Constraints
- + Improve**
 - Content / Tools – Creative Thinking, PICK Charts, Kaizen, SMED, Mistake Proofing, FMEA, Change Management
- + Control**
 - Content / Tools – Standard Work, 5S, Visual Management, Ongoing Monitoring Techniques, Control Plans, Report Out

A project that delivers a cost saving of at least €25,000 to the business is required. Trainees receive mentoring from the tutor throughout the process.

Duration

5 days in person or 10 X 0.5 days online

FDI Skillnet members:
€1,050 per person

Non-members:
€2,760 per person

HACCP Introduction

Designed for those working in the food industry who need to understand HACCP at a basic level to avoid food poisoning or harm

Who should attend?

General management, quality/production/maintenance staff, catering/retail personnel and Human Resources with the responsibility to plan and manage staff training needs.

Trainer

SQT Training are leading providers of quality management and auditor training within the Food and Drink sector. For over 25 years, they have been delivering training to the sector to help companies improve standards, maintain compliance and drive efficiency.

Objectives

Candidates will be led through the HACCP System Model explaining the specific requirements. Trainees will become familiar with Irish & International Standards and be able to participate in a HACCP team carrying out prerequisites and verification processes in an efficient manner while communicating essential HACCP principles to other staff members.

Programme content

- + Course Introduction
- + Tutor & Delegate Introduction
- + Basic Food Hygiene
- + Causes of Food Poisoning
- + Introduction to Food Safety Legislation
- + Food Safety Model
- + Pre-requisite Programme
- + 7 HACCP Principles
- + 12 Codex Steps
- + Course Review

Duration

2 day programme

FDI Skillnet members:
€250 per person

Non-members:
€450 per person

HACCP – Development, Implementation and Verification (QQI Level 5)

Understand the key elements involved in implementing an effective and compliant HACCP plan

Who should attend?

General management personnel who wish to develop basic Food Safety knowledge, as well as those involved in Quality Assurance or Technical Personnel who have specific responsibilities for Food Safety.

Trainer

SQT Training are leading providers of HACCP training within the Food and Drink sector. For over 25 years, they have been delivering training to the sector to help companies improve standards, maintain compliance and drive efficiency.

Objectives

- + Understand the legal requirements of Hygiene Packages (852/2004, 178/2002)
- + Be familiar with the Irish & International Standards that are specific to the sector
- + Understand the elements & importance of an effective pre-requisite program
- + Understand the Seven Principles & Common terms involved in HACCP
- + Be familiar with Hazard Analysis and Risk Assessment Techniques
- + Participate in a HACCP Team, co-ordinate the work of a HACCP Team
- + Develop and implement a HACCP plan and verify effectiveness

Programme content

Day 1

- + Causes of Food Poisoning
- + Legislation 178/2002, 852/2004 Commission Notice 2016/C 278/01
- + Code of Practice: Irish Standard IS 340/ IS 341 International Standard ISO 22000 (FSSC) BRC Global Food Safety Standard
- + Key Definitions
- + Management Commitment
- + Pre-requisite Program (G.M.P)
- + History /Benefit of HACCP
- + HACCP Plan Development
- + 12 Steps covering 7 Codex Principles

Day 2

- + Principle 1: Identify Hazards and Risk Assessment
- + Principle 2: Identify Critical Control Points
- + Principle 3: Establish Critical Limits & Validate
- + Principle 4: Establish Monitoring System
- + Principle 5: Establish Corrective Action Procedure
- + Principle 6: Establish Documentation, Work Instructions, Check Sheets
- + Principle 7: Establish Verification Procedure / review
- + Course review and Evaluation

Duration

2 day programme

FDI Skillnet members:
€400 per person

**Plus €110
certification**

Non-members:
€700 per person

**Plus €140
certification**

Advanced HACCP Design & Validation based on Risk Assessment (QQI Level 6)

Designed for those working in the food industry who have the knowledge and competency to participate in the decision-making part of a HACCP Team.

Who should attend?

General management, quality/production/maintenance staff, catering/retail personnel, regulatory/engineering/supply chain personnel and Human Resources with the responsibility to plan & manage staff training needs.

Trainer

SQT Training are leading providers of quality management and auditor training within the Food and Drink sector. For over 25 years, they have been delivering training to the sector to help companies improve standards, maintain compliance and drive efficiency.

Objectives

The course explains the concept of Risk Visualisation where every hazard identified is evaluated based on a scoring system from 1-9 or Green, Amber or Red. Food Safety Standards are assessed on their risk and ensuring teams become knowledgeable in the process of decision making.

Programme content

- + Food Safety Legislation 178/2002, 852/2004, 2073/2005, Commission Notice 2016
- + Food Safety Standards: ISO 22000, ISO 22002
- + BRC Global Safety Standard
- + Risk Management – Principles & Guidelines
- + ISO 31000 :2009
- + Food Safety Strategy / Control Measures
- + Pre-requisites Vs Operation pre-requisites Vs HACCP Plan
- + Seven Codex Principles / 12 steps of HACCP
- + Risk Assessment & Risk Management Planning
 - Hazard Identification
 - Risk Analysis
 - Risk Evaluation
 - Risk Monitoring
 - Risk Control
- + Risk Visualisation
 - Risk Reduction
 - Residual Risk
- + Validation Vs Verification of PRPs, OPRPs and CCPs
- + QQI Examination and course assessment

Duration

2 day programme

FDI Skillnet members:
€400 per person

Non-members:
€700 per person

**Plus €110
certification**

**Plus €110
certification**

HACCP Refresher

A recap of the key skills, methods and approaches required for development and delivery of a HACCP plan

Who should attend?

General management personnel who wish to develop basic Food Safety knowledge. Those involved in Quality Assurance and Technical Personnel who have specific responsibilities for Food Safety as well as Engineering and Maintenance Personnel.

Trainer

SQT Training are leading providers of HACCP training within the Food and Drink sector. For over 25 years, they have been delivering training to the sector to help companies improve standards, maintain compliance and drive efficiency.

Objectives

Candidates will understand the Seven Principles and common terminology involved in HACCP. Trainees will become familiar with Irish and International Standards, and be able to participate in a HACCP team carrying out prerequisites and verification processes in an efficient manner while communicating essential HACCP principles to other staff members.

Programme content

- + Food Safety Culture
- + Department roles & Responsibilities
- + Food Safety Legislation
- + Codes of Practice
 - Irish Standards IS340 – Catering
 - IS 341 – Retail /Wholesale
- + International Food Safety Standard, FSSC, BRC
- + Food Safety Model
- + Key Definitions / Terminology
- + Prerequisite Programme (15 PRPs)
- + History and Benefits of HACCP
- + Risk Assessment Methods
- + 7 HACCP Principles
- + 12 Codex Steps
- + Probability Vs Severity
- + Risk Reduction
- + Residual Risk
- + Risk Visualisation

Duration

1 day programme

FDI Skillnet members:
€200 per person

Non-members:
€350 per person

Instructor Skills for the Food and Drink sector (aka Train the Trainer)

A two-day training programme, delivered online, that give in-company trainers in the food and drink sector the key skills in developing and delivering training courses.

Who should attend?

QA personnel responsible for induction training. HR Personnel. Team Leaders or any personnel responsible for delivering training modules to production operatives.

Trainer

SQT Training are leading providers of quality management and auditor training within the Food and Drink sector. For over 25 years, they have been delivering training to the sector to help companies improve standards, maintain compliance and drive efficiency.

Objectives

Develop the competence to carry out a training needs analysis to identify the training needs of relevant staff.

- + Be able to develop training plans / lessons for F.B.O. staff
- + Know how to prepare and design a training programme to meet the training needs identified
- + Know the appropriate visual aids to be used to impart the required knowledge
- + Understand how people learn, Active Vs Passive Learning
- + Know how to create the correct learning environment to make learning more effective and help your learner remember more
- + Establish competency evaluation methods to assess the return on investment in training
- + Acquire the presentation skills necessary to become confident and competent in delivering training programmes

Programme content

- + Importance of Food Safety and Health and Safety training in food business
- + Fear of presenting
- + How people learn
- + Identifying the training need
- + Planning the training programme
- + Delivering the planned training
- + Presentation skills
- + Feedback
- + Evaluation and Assessment

Duration

2 day programme

FDI Skillnet members:
€350 per person

Non-members:
€550 per person

Quality Management Systems / Lead Auditor (ISO 9001:2015)

Enhance your knowledge of auditing and QMS, becoming a more competent, confident and effective auditor

Who should attend?

Those who intend to become practising auditors, who have responsibility for conducting external audits. Those who manage the development and implementation of Quality Management Systems. Anyone who wish to enhance their auditing skills and knowledge.

Trainer

SQT Training are leading providers of quality management and auditor training within the Food and Drink sector. For over 25 years, they have been delivering training to the sector to help companies improve standards, maintain compliance and drive efficiency.

Objectives

To provide delegates with a good understanding of process auditing, including the benefits and advantages from proper implementation of ISO 9001. Trainees will be able to competently audit entire QMS against the requirements of ISO 9001.

Programme content

- + **Purpose and Benefits of:**
 - Quality Management Systems
 - ISO 9000 Series of Standards
- + **ISO 9000 – Concepts and Terminology**
- + **Structure, purpose and interrelationships:**
 - ISO 9000
 - ISO 9001
 - ISO 9004
 - ISO 19011
- + **Difference between auditable standards and guidance documents**
- + **7 Quality Management Principles**
- + **Certification/Registration and Accreditation Processes**
- + **Types of Audits**
 - Legal Compliance
 - ISO Standards
- + **Process Approach/ Checklists / Process-Based Audit Plans**
- + **Conduct, Report, Follow up QMS Audits**
 - Methodology
 - Questioning Techniques
 - Roles and Responsibilities
- + **IRCA Auditor Certification Requirements**

Duration

5 days in person or 10 X 0.5 days online

FDI Skillnet members:
€800 per person

Non-members:
€1,290 per person

Traineeship in Meat Industry Skills

Accredited traineeship programme at Award, Certificate and Diploma level in knife skills incorporating trimming and boning for meat plants

Who should attend?

Those in the meat industry who require additional knifing and boning skills to work on a high speed de-boning line. Those who are new to the industry or working in different areas of the plant and wish to become proficient in knifing and boning.

Trainer

Sapphire Training Solutions are specialist providers of traineeship programmes in Ireland. As an approved certification centre, they specialise in the development, assessment and validation of accredited programmes from FDQ and City & Guilds.

Objectives

To provide meat processors with the essential skills, tools and framework needed to deliver in-house training in knifing and boning skills. To develop the ability to work in a fast paced environment within meat processing plants. Candidates will enhance their abilities in this programme and will have the ability to move up the line.

Programme content

Award

Covers general operator skills

- + Overview of Irish Food Sector
- + Manual Handling
- + Hygiene and Cleaning
- + Chemical Handling
- + Health and Safety
- + Food Safety in Manufacturing
- + HACCP

Certificate

Covers basic knife and trimming skills

- + Introduction to Knives
- + Sharpening and Maintenance
- + Different Meat Cuts
- + Boning and Trimming
- + Carcass Splitting / Chilling
- + Meat Processes after Chilling

Diploma

Covers advanced knife, trimming and slaughtering skills

- + Slaughtering
- + Quality Standards in Food Manufacturing
- + Introduction to Lean - Meat Industry
- + Technical Project (Assignment)

Duration

Training is customised to individual plant requirements.

Postgraduate Certificate in Food and Drink Regulatory Affairs

Understand the theory and best practice of regulatory structures and procedures with option to progress to a full MSc in Food Regulatory Affairs.

Who should attend?

Those working in technical areas such as quality, food safety, regulatory affairs or R&D, who need to have the knowledge and skills to be able to understand food regulations and how they impact their business.

Trainer

Atlantic Technological University (formerly Institute of Technology, Sligo).

Objectives

This is a one-year part-time Level 9 Postgraduate 'Certificate in Food Regulatory Affairs' (30 credits) consisting of five modules delivered over two semesters. The programme is available online using a combination of distance-learning, e-learning and workshops to provide an overall blended learning approach. This programme will enhance trainee's knowledge and professional competence in Food Regulatory Affairs and allow them to demonstrate these skills in the context of their own role. Students must have at minimum a Level 8 Award or Level 7 with at least three years relevant work experience to be accepted on this programme.

Programme content

Course Code	Modules	Credits	Semester
REGU09013	Framework of Food Regulations	10	1
REGU09014	Food Processing Regulations	5	1
REGU09015	Claims and Labelling - Food to Market	5	2
REGU09016	Supply Chain Integrity	5	2
REGU09017	Professional Development in Food Regulatory Affairs	5	2

Programme assessment

Continuous Assessment (CA) forms 100% of the marks for each module. CA will include the following: Scenario Based-Written Assignment, MCQs, Short Assessments, Quizzes, Presentations, Reflective learning journals, Team-based assignments, Group project, Case study analysis and an individual portfolio of learning.

Approach

Online/blended programme designed for students who want to study part-time at a pace that matches their work life balance. Live lectures will be provided online weekly and can be accessed throughout the programme. In addition, there are two workshops per semester to encourage group discussion and give the opportunity to raise questions.

FDI Skillnet members:
€2,250 per person

Non-members:
€3,500 per person

MSc. in Food and Drink Regulatory Affairs

An MSc programme that provides learners with key knowledge in food regulations along with the critical thinking skills to be able to apply them to your business.

Who should attend?

Employees in the Food and Drink sector, working in technical areas such as quality, food safety, regulatory affairs or R&D, who need to be able to interpret regulations and understand their implications to their business. Participants may have a variety of backgrounds, including food science, food engineering, home economics, microbiology, however, many have not had any formal training in food regulations.

Trainer

Atlantic Technological University (formerly Institute of Technology, Sligo)

Objectives

Develop a thorough understanding of the theory and best practice relating to Food and Drink sector regulatory structures and procedures along with the skills to act autonomously in the effective application and interpretation of regulations to their business.

Programme content

Certificate Level (30 credits)

- + Framework of Regulations
- + Food Processing Regulations
- + Claims and Labelling
- + Supply Chain Integrity
- + Professional Development

Diploma Level (30 credits)

- + Research methods in Food Regulatory Affairs
- + Managing Trends and Divergence in Food Regulatory Affairs
- + Sustainable Food Systems and Regulatory interactions
- + Current and Future issues impacting Food Regulations

Masters (30 credits)

- + Dissertation / Research Project
- + Company-focused
- + Lit Review
- + Research
- + Findings
- + Recommendations

Programme Assessment

With a heavy emphasis on practical application, participants are assessed via Continuous Assessment (CA) forms 100% of the marks for each module – no exams. CA will include the following: Scenario Based-Written Assignment, MCQs, Short Assessments, Quizzes, Presentations, Reflective learning journals, Team based assignments, Group project, Case study analysis, individual portfolio of learning.

Duration

Two years

Programme Cost

Participants have the option to claim their Certificate or alternatively progress to Diploma on pathway to MSc in Food Regulatory Affairs.

- + PG Certificate (€2,250)
- + PG Diploma (€2,250 + €2,250)
- + MSc (€2,250 + €2,250 + €2,150)

FDI Skillnet members:
€6,650 per person

Non-members:
€9,900 per person

“ In a constantly evolving and challenging regulatory landscape, it remains essential that Irish Food and Drink businesses continue to prioritise the importance of legislative knowledge and compliance. Understanding, interpreting and applying food legislation is an essential requirement for a diverse range of roles across our industry. This course has been specifically developed in conjunction with leading experts across the Irish food sector. It not only increases knowledge but also develops the necessary skills of learners to apply these regulations to their business in a practical manner.”

**Aoife Moran, Regulatory Affairs,
Food Drink Ireland**

Post Graduate Certificate in Sustainable Food Systems

A Level 9 programme, delivered online, to support the development of knowledge and skills to develop sustainable solutions in the food and drink sector.

Who should attend?

Those in industry with full or increased levels of responsibility in sustainability within their businesses. Working in a variety of functions with various 3rd level qualification, but without a qualification in Sustainability.

Trainer

Atlantic Technological University (formerly Institute of Technology, Sligo).

Objectives

- + Demonstrate a thorough understanding of policies, best practice, sustainable tools and theories that shape the world of food sustainability systems.
- + Apply systems thinking approaches to critically and creatively evaluate the complexity of food systems and identify current and future challenges that may arise when adopting a sustainable system.
- + Identify, assess and propose sustainable solutions to real-world systems.

Programme content

Module 1 – Sustainability and Food and Drink Manufacturing

- + Sustainability and Sustainable Development Goals
- + Environmental, social and economic sustainability
- + Ecosystems and natural capital
- + Circular economy and sustainability and opportunities for food manufacturers
- + Circular economy models – EU Farm to Fork Strategy
- + Sustainability in practice and sustainable systems.
- + Irish and EU Policy including the common agricultural policy and the European Green Deal
- + Sustainable development indicators
- + Economic methods for measuring sustainability and measuring sustainability beyond money

Module 2 – Systems thinking

- + What is systems thinking?
- + Global food systems.
- + Systems thinking tools
 - LCA, Systems Maps, Input-Output Analysis.
- + Using systems thinking
 - fixing broken systems, designing systems and closing material loops.
- + Problem solving in a systems context

Programme Assessment

A combination of module specific projects (individual and group based) along with 1 large project that links the programme learning with the practical application within the business.

Module 3 – Sustainable Food Production

- + Resource use and management worldwide and in Ireland
- + Current status of energy, water and material reserves and usage patterns
- + Pressures on the food sector to improve environmental performance and reduce costs
- + Relevant EU and Irish policy
- + Environmental licensing process including categories of licence (IE, IPC, Waste activity, GHG)
- + Resource efficiency frameworks
- + Waste management hierarchy
- + Audit development and best practice
- + BAT guidance documents
- + Audit implementation, recommendations and management review
- + Life cycle thinking and assessment.

Module 4 – Sustainability across the supply chain

- + The principles of sustainable food supply chains
- + The role of traceability on sustainable food production
- + Food waste vs food loss and valorisation.
- + Contribution of packaging and labelling on food waste
- + Food Labels related to sustainability including front-of-pack, country of origin and voluntary labelling
- + Food choices of consumers including sustainable diets

Duration

Six months

FDI Skillnet members:
€2,250 per person

Non-members:
€3,500 per person

MSc. in Sustainable Food Systems

An MSc that provides learners with the tools and critical thinking skills to lead Sustainability projects within their business.

Who should attend?

Those in industry with full or increased levels of responsibility in sustainability within their businesses. Working in a variety of functions with various 3rd level qualifications, but without a qualification in sustainability.

Trainer

Atlantic Technological University (formerly Institute of Technology, Sligo).

Objectives

Develop a thorough understanding of policies, best practice, sustainable tools and theories that shape the work of sustainable food systems along with key skills in systems thinking, critical to evaluating complex food systems and developing sustainable solutions to real-work food systems.

Programme content

Certificate Level (30 credits)

- + Introduction to Sustainability and Sustainable Food Systems
- + Systems thinking
- + Sustainable Production
- + Sustainability and the Food Chain

Diploma Level (30 credits)

- + Sustainable Food Systems and Regulatory interactions.
- + Research methods in Sustainable Food Systems
- + Sustainable and International Markets
- + Professional Development in Sustainable Food Systems

Masters (30 credits)

- + Thesis / Research Project
- + Company focused
- + Lit Review
- + Research
- + Findings
- + Recommendations

Programme Assessment

With a heavy emphasis on practical application, participants are assessed via Continuous Assessment (CA) forms 100% of the marks for each module – no exams. CA will include the following: Scenario Based-Written Assignment, MCQs, Short Assessments, Quizzes, Presentations, Reflective learning journals, Team based assignments, Group project, Case study analysis, individual portfolio of learning.

Duration

Two years part-time

Programme costs

Participants have the option to claim their Certificate or Diploma on successful completion of the relevant academic stage, or, alternatively progress to next level on pathway to MSc in Sustainable Food Systems.

- + PG Certificate (€2,250)
- + PG Diploma (€2,250 + €2,250)
- + MSc (€2,250 + €2,250 + €2,150)

FDI Skillnet members:
€6,650 per person

Non-members:
€9,900 per person

Certificate in Sustainable Food Packaging

A certified programme that provides a solid and practical foundation in food packaging in order to support more sustainable choices.

Who should attend?

The course is ideal for those responsible for making sustainable packaging choices, such as Packaging Managers or Specification Officers and those working with packaging and NPD (new product development), from the Supply Chain, Production, Marketing, Packaging Technology and Procurement Departments.

Trainer

The Irish Packaging Society and Leonard Little & Associates Ltd.

Objectives

Delivered over 11 x ½ days, the programme is designed to deliver the following:

- + To aid and support the development of a sustainable business strategy with a focus on Packaging
- + To develop a sound foundation and understanding of packaging
- + To build and develop sustainable thinking, and help the student apply this new knowledge to their job and to a practical course project
- + To help enable, the development of a circular economy, to retain material value, enhance resource efficiency and address growing resource scarcity concerns
- + To learn about the various materials and formats, the alternatives, the reuse, or the recyclability and the best sustainable choices for your product type, business, and the environment

The key outcome for participants, will be the ability to critically evaluate their current packaging formats and reflect on the required functionality of that packaging, with a view to making good sustainable choices. Having identified needs they will be able to diagnose and apply the knowledge to create a pack change plan, for those less sustainable packaging choices and consider the next step for the more difficult format challenges.

Programme content

- + **Sustainable Packaging Overview**
 - Choices, challenges, and issues
- + **Functions of Packaging, Hazards of Distribution and Food Safety**
- + **NPD process**
 - Stages, Keylines, Origination, Proofs, Timelines etc
- + **The Importance of Specifications**
 - Working with Suppliers
- + **Project Brief**
 - Product Choice, Methodology, Learning Outcomes
- + **Materials and Conversion Processes**
- + **Student Project Support**
- + **Sustainability & Legislation**
- + **Sustainability**
 - Fit for Purpose Packaging
- + **Carbon Footprint, Life Cycle Assessment and Systems**
- + **Packaging for a Circular Economy**
- + **Student Project**
 - Presentation to Group, Marking and Feedback

Duration

11 X 0.5 days

€1,700 per person

Understanding Finance for non-Financial Managers in the Food and Drink sector

Learn how to read and understand key financial indicators for sustainable food and drink businesses

Who should attend?

Managers in the Food and Drink sector.

Trainer

Established 15 years ago, **Invisio** are highly rated providers of people and organisational development training.

Objectives

At the end of this programme, participants will understand how they can use their accounts to better run their business/department and understand the fundamental principles behind the compilation of company accounts. They will be able to analyse and interpret the data in a meaningful way, using defined financial ratios and key performance indicators. In addition, they will be able to understand the techniques used in forecasting and budgeting, as well as the principles of investment appraisal.

Programme content

- + Understanding Financial Techniques
- + The Basics of Accounting
- + Financial indicators for a sustainable business
- + Analysing Accounts
- + Contribution Analysis
- + Forecasting and Budgeting
- + The Evaluation of Expenditure
- + What Matters Most?
 - Profit Sensitivity Analysis
- + The link between quality management and finance

Duration

1 day programme

FDI Skillnet members:
€140 per person

Non-members:
€350 per person

Project Management Essentials for non-Project Managers

Learn how to plan, execute and control a project to a successful conclusion

Who should attend?

Across the Food and Drink sector, many managers are being tasked with additional projects as part of their learning and development. Many have never received formal project management training and this course is designed to help them understand the basic principles to see a project through to the end in an efficient and successful manner.

Trainer

Established 15 years ago, **Invisio** are highly rated providers of people and organisational development training.

Objectives

This intensive 1 day workshop aims to enhance participants understanding and appreciation of the characteristics of successful project leaders. At the end of this programme, trainees will understand the phases of a project, how to estimate resource needs, how to manage stakeholder communication as well as how to plan, execute and control a project from initiation to a successful conclusion.

Programme content

- + Introduction to Project Management
- + Phase 1 – Project Initiation and Definition
- + Phase 2 – Project Planning
- + Phase 3 – Execution and Control
- + Phase 4 – Project Close and Review
- + Post Course Action Plan

Duration

1 day programme

FDI Skillnet members:
€175 per person

Non-members:
€395 per person

Time Management

Learn how to take control of your time and become more effective and efficient on a daily basis

Who should attend?

Those who find that there are not enough hours in the day and find it difficult to achieve their goals in a timely manner.

Trainer

Established 42 years ago, **Carr Communications** are highly rated providers of people and organisational development training.

Objectives

A practical, one day training programme aimed at providing participants with the tools to take control of the time they have, how to view time as a resource and schedule the important things. Trainees will learn how to avoid time thieves, prioritise their work load and influence others to help achieve their outcomes.

Programme content

- + Self Assessment: How I use my time
- + Case Study – Working in Pairs
- + Clarify the Purpose of your Role
- + Activities Evaluation Matrix
- + The Urgency Scale
- + My Weekly Plan
- + The Behaviours of Effective People
- + Time Management Techniques
- + Beware the Busy Manager
- + Twelve Steps to Effective Delegation
- + Commitment and Action Planning

Duration

1 day programme

FDI Skillnet members:
€140 per person

Non-members:
€350 per person

Presentation Skills

Learn how to deliver confident and effective presentations and reach your objectives in an interesting and impactful way

Who should attend?

Those whose role requires them to make presentations on a more regular basis and who would benefit from training that would support them in the preparation and delivery, including handling nerves.

Trainer

Established 42 years ago, **Carr Communications** are highly rated providers of people and organisational development training.

Objectives

This 1-day course will help trainees identify and meet the needs of an audience, reach their presentation objectives, learn how to handle nerves, get tips on effective use of PowerPoint, be interesting, understandable, memorable and ultimately deliver successful presentations.

Programme content

- + Agreeing Criteria for Effective Presentation
- + Record Case Studies
- + Creating Audience Focus
- + Creating Understanding
- + Delivery Issues
- + Visual Aids
- + Creating Impact
- + Structure and Logic in Preparation
- + Group Presentations
- + Agree Future Steps / Commitments

Duration

1 day programme

FDI Skillnet members:
€200 per person

Non-members:
€395 per person

Crisis Communication and Reputation Management

An online course in crisis preparedness, crisis communications and reputation management for companies in the Food and Drink sector.

Who should attend?

Company owners, Managing Directors, General Managers, Communications / Public Affairs Managers and Crisis Management teams in the Food and Drink sector.

Trainer

Carr Communications are specialists in crisis management with a proven ability to support an organisation during a time of intensive media scrutiny.

Objectives

At the end of the programme participants will develop:

- + A firm grasp of the context in which they are operating and the threats to this
- + The ability to create and enhance any existing crisis strategies
- + Clear strategies for engaging with your stakeholders
- + An understanding of the tools for evaluating risk and aiding decision-making
- + A solid grounding in media requirements
- + A strong understanding of how to handle media and put robust processes in place
- + The ability to evaluate and plan for recovery

Programme content

Part 1: 6 hour online session for Crisis Management Team

- + Introductions and context
- + Evaluating the risks that can lead to a crisis in your business
- + Formulating a crisis communication strategy
- + How to identify and prioritise risks
- + Analysing your audiences and stakeholders and their communications needs during a crisis
- + Golden rules of Crisis Communication
- + Evaluating your reputation
- + How to make better decisions during a crisis
- + How to communicate with and maintain relationships with stakeholders during a crisis
- + When and how to engage and manage the media
- + Handling social media
- + Post-crisis evaluation and developing a recovery plan

Part 2: 2 hour one-to-one media coaching session for potential spokespersons

Duration

2 day programme

Programme delivered as an in-company course only with up to 8 participants.

FDI Skillnet members:
€1,100 per company

Non-members:
€1,650 per company

Mentoring Skills

Learn how to mentor people in an appropriate, effective manner

Who should attend?

Those new to mentoring who wish to learn the essential skills and processes. Mentors who wish to refresh their working knowledge and skills.

Trainer

Frank C Guy is an experienced Leadership and sales coach with wide industry experience, including the Food and Drink sector.

Objectives

To develop participants abilities and skills to mentor colleagues effectively. Trainees will learn the different approaches to mentoring and how to apply them. They will become familiar with the tools used during the mentoring process and how to overcome the various challenges that can arise during this process.

Programme content

- + About Mentoring
- + The Mentoring Process
- + Mentoring Styles
- + Mentoring Skills
- + Overcoming Mentoring Challenges
- + The Mentor's Toolkit

Duration

1 day programme

FDI Skillnet members:
€150 per person

Personal Productivity with Microsoft Outlook

Learn the skills, knowledge and habits to effectively use Microsoft Outlook as a Personal Productivity tool

Who should attend?

Daily users of Outlook who are looking to use it more efficiently.

Trainer

E-Bridge is a leading provider of customisable IT Training Nationwide

Objectives

The aim of this training programme is to provide participants with a practical and workable solution to managing their workload and time more effectively. Trainees will learn how to take control through customisation of Microsoft Outlook's features and tools. This will provide the trainee with the ability to prioritise, set, manage and achieve realistic goals and tasks.

Programme content

- + Time Management Principles
- + Overview of Microsoft Outlook Basics
- + Customise Microsoft Outlook
- + Working with your Personal Calendar and Tasks
- + Working with Email
- + Working with your Address Book
- + Working with Others/ Data Collaboration

Duration

1 day programme

Microsoft Excel – Introduction, Intermediate and Advanced

Acquire the essential skills needed to use Excel effectively and to its fullest potential on a day-to-day basis.

Who should attend?

As a network we offer 3 levels of Excel training and ensure all trainees complete an assessment survey to determine they are on the required level.

- + Introduction level is for those who are new to Excel or have a very limited working knowledge.
- + Intermediate level is for those who have completed an Introductory Course and use excel on a daily basis.
- + Advanced level is for those who have a proficient working knowledge of Microsoft Excel and wish to learn the advanced features.

Trainer

E-Bridge is a leading provider of customisable IT Training Nationwide

“Collaborating with industry counterparts to address essential skills gaps is something of real value to ARYZTA Ireland. Since the launch of the network they have developed essential programmes to address knowledge and skills gaps, that would have not been available to us, had it not been for the Food Drink Ireland Skillnet.”

Emily Malone, Aryzta Ireland

“The Food Drink Ireland Skillnet has been a brilliant resource for me over the years. As a HR professional, it is essential to receive quality and value in our learning and development programmes. With the Food Ireland Ireland Skillnet, you can be guaranteed quality, flexibility and value from money. It is an amazing resource providing the latest, up to date courses from the best providers.”

Wayne Green, Pat the Baker
